Course overview

Building accessibility into your eLearning programmes is no longer optional, it is essential. This course gives you the knowledge and practical guidance to create learning that is inclusive, usable, and accessible to all learners.

Designed for those new to accessibility, you will improve your Storyline 360 and Rise 360 courses using industry best practice. You will explore WCAG 2.1 and 2.2 guidelines and learn practical techniques that can be applied directly to your content. You will also build the confidence to evaluate your own work and make informed design decisions that support accessibility.

By the end of the course, you will be equipped to create more inclusive learning experiences that meet both learner needs and accessibility standards.

Core objectives

01

Apply WCAG principles and accessibility features in Storyline 360 and Rise 360 to design inclusive learning content.

02

Interpret the impact of inaccessible design by analysing learner experiences and identifying key accessibility barriers.

03

Demonstrate accessibility best practices by creating and presenting accessible Storyline content during the Creative Innovation Workshop.

Course details

Audience:

Articulate users existing Storyline 360 experience looking to build accessible eLearning content.

Course dates:

Check our website for the latest dates.

Format and delivery:

Delivered by expert instructors, either virtually or in person.

Agenda

01

Introduction to digital accessibility

Build a strong foundation by understanding key accessibility principles and inclusive design.

- Identify key accessibility considerations and the role of assistive technologies.
- Explain the importance of accessibility in creating inclusive learning environments.

02

Enter the Sensory Lab

Experience accessibility challenges from the perspective of learners with different learner needs.

- Experience non accessible learning to identify potential barriers.
- Evaluate how design choices impact accessibility and learner inclusion.

03

Web Content Accessibility Guidelines (WCAG)

Review WCAG, UK legislation, and key accessibility principles to understand their impact on inclusive learning design.

- Interpret WCAG guidelines and relevant legal requirements for digital learning.
- Analyse the four key audience groups to create inclusive content.

04

WCAG key principles: Perceivable and Operable

Implement WCAG principles to make content perceivable and operable in Storyline 360 for an inclusive learning experience.

- Create accessible media using text, time based elements, and multiple formats.
- Apply principles to contrast, fonts, and controls to improve usability.

Agenda

05

WCAG Key Principles: Understandable & Robust

Design content that is clear, predictable, and compatible across technologies.

- Develop clear, predictable navigation and language for diverse learners.
- Build content that works across different browsers and with assistive technologies.

06

Accessible content using Articulate Rise 360

Create inclusive, user-friendly courses in Articulate Rise 360 by leveraging built-in accessibility features and WCAG principles.

- Explore accessibility features and key considerations for building compliant courses.
- Apply design principles to create accessible content blocks..

07

Creative innovation workshop

Demonstrate your new skills in a hands-on live review session with your trainer, receiving real-time feedback and guidance.

- Further apply your learning by creating Storyline slides in real time, using everything you've learned.
- Receive personalised feedback and guidance.

08

Best practices and compliance

Wrap up the course with key takeaways, guidance for compliance and next steps for implementing accessibility.

- Analyse best practices for accessibility testing to confirm content meets standards.
- Identify next steps to improve accessibility across future projects.

Pre-requisites

This course combines theory and system-based training, with a strong focus on Storyline 360. Attendees should have a solid working knowledge of the platform and be confident using its core building blocks, including Slides, States, Layers, and Triggers.

This course is designed for those who have completed Articulate 360 and Storyline training or have equivalent experience. A basic understanding of variables is also recommended.

All attendees will need:

- The latest version of Storyline 360 installed and ready to use
- For virtual training, we recommend two screens for an optimum learning experience

Why train with us?

Training isn't just about building skills – it's about helping people feel confident, capable, and inspired to do their best work.

Our courses are designed to meet learners where they are, giving them the space, support, and encouragement they need to grow. Every session is live, interactive, and hands-on, so people can ask questions, practise new techniques, and learn alongside others who share the same challenges. We focus on real-world application, not theory, so learners leave feeling ready – not just informed. And because all our programmes are shaped by decades of experience and backed by trusted accreditations, you can be sure your teams are receiving training that genuinely supports their development.

Learn from experts:

Course content developed and delivered by top experts with 80+ years of combined experience

Post-training support:

We're still here after the session – ready with resources, answers and guidance to support your continued learning journey.

Accredited & trusted:

Every learner walks away with recognised certifications or diplomas showcasing their skills and progress professionally.

Live, instructor-led learning:

Hands-on sessions, led by certified trainers that include peer-to-peer engagement and live feedback.

“Saffy was absolutely fantastic. The session was ran so professionally, with lots of patience and allowed time to practice. She was able to accommodate our different needs (timing, pace etc.) The course also provided many resources to aid us in building accessible courses using the Articulate tools, and other best practices.”

**SENIOR TRAINING AND EDUCATION MANAGER,
VISIT BRITAIN/ VISIT ENGLAND**

“Brilliant training, very engaging and useful with a good mix of instruction and activity. The training was well-presented and I liked that discussion was encouraged – it was really good that Saffy encouraged and allowed time for this.

Thank you very much for enjoyable and valuable sessions, thank you!”
