Course overview

Join our intensive 1-day Rise 360 training course and gain the skills to create **visually captivating** and **effective eLearning experiences**. Through **hands-on practice**, you'll learn how to build and customise courses using Rise 360's intuitive blocks and content library. Create engaging scenarios, knowledge checks, and interactive content while increasing your development speed with **AI-powered tools**.

Led by expert certified trainers, this course is packed with **real-world examples** and **industry secrets**. To help you elevate your eLearning content, you'll explore techniques to **reduce cognitive** load and implement **microlearning** strategies. By the end of the day, you'll be confident in creating, managing and publishing standout courses that meet the demands of today's learners, and **set your organisation apart** in a competitive digital learning landscape.

Core objectives

01

Apply your new knowledge and skills to create content using Rise 360, including interactions and quizzing.

02

Increase learner retention and engagement by creating Rise 360 courses with the WOW factor.

03

Build beautiful Rise 360 blocks, utilising the skills and knowledge transferred throughout the day.

Course details

Audience:

Course creators who need to create high-impact digital learning, without requiring advanced eLearning design expertise.

Course dates:

Check our [website](#) for the latest dates.

Format and delivery:

Delivered by expert instructors, either virtually or in person.

Agenda

01

Introduction to Articulate Rise 360

Get started with Rise 360, the powerful online authoring tool within the Articulate 360 suite, understanding its core features.

- Navigate the dashboard, block library, and content library to build and manage courses efficiently.
- Understand when to choose Rise over Storyline 360 to suit different learning needs.

02

Course setup and customisation

Master the key steps to set up your course in Rise 360, ensuring it reflects your brand guidelines and meets your instructional goals.

- Set up a course using themes, colours, and branding to ensure consistency.
- Apply layout and navigation best practices to create clear learning experiences.

03

The building blocks of Rise 360

Build structured, visually engaging content using Rise's blocks and AI Assistant features.

- Create lessons using a range of block types to present content clearly and effectively.
- Integrate media including images and video to enhance understanding and visual appeal.

04

Boost engagement with interactive blocks

Create interactive learning experiences that encourage participation and exploration.

- Use interactive blocks to add variety and depth.
- Encourage active learning through scenarios that promote decision-making and exploration.

Agenda

05

Integrating Storyline blocks within Rise

Extend your courses by combining Rise simplicity with Storyline interactivity.

- Embed Storyline blocks to introduce more advanced interactions and richer experiences.
- Get inspired by real-world examples that showcase how Storyline blocks take your course to the next level.

06

Microlearning

Design focused learning that improves clarity, retention, and learner experience.

- Structure content into concise, bite-sized lessons that are easy to follow and navigate.
- Apply best instructional design principles to reduce cognitive load and improve learner focus.

07

Quizzing and assessments

Learn how to build effective quizzes that align with your course objectives and provide meaningful feedback.

- Build a range of question types to assess knowledge and support retention.
- Configure feedback and settings to guide learners and measure performance.

Agenda

08

Publishing, Review 360 and course settings

Prepare and share your course with confidence across different platforms and audiences.

- Collaborate with stakeholders using Review 360 to gather and apply feedback.
- Optimise publishing and course settings for delivery, tracking, and accessibility.

09

Elevating your Rise 360 courses

Discover effective techniques and industry secrets to bring your Rise 360 course to the next level, increasing engagement and visual impact.

- Apply design techniques to elevate visual quality and learner experience.
- Explore innovative use cases and examples to inspire and improve your courses.

Pre-requisites and pre-course work

This training session is designed for a variety of skill levels.

All participants should have basic computer skills and familiarity with some of the more common user interfaces (such as PowerPoint and browser windows).

All attendees will need:

- Articulate Rise 360 open on your browser and ready to use
- For virtual training, we recommend two screens for an optimum learning experience

Why train with us?

Training isn't just about building skills – it's about helping people feel confident, capable, and inspired to do their best work.

Our courses are designed to meet learners where they are, giving them the space, support, and encouragement they need to grow. Every session is live, interactive, and hands-on, so people can ask questions, practise new techniques, and learn alongside others who share the same challenges. We focus on real-world application, not theory, so learners leave feeling ready – not just informed. And because all our programmes are shaped by decades of experience and backed by trusted accreditations, you can be sure your teams are receiving training that genuinely supports their development.

Learn from experts:

Course content developed and delivered by top experts with 80+ years of combined experience

Post-training support:

We're still here after the session – ready with resources, answers and guidance to support your continued learning journey.

Accredited & trusted:

Every learner walks away with recognised certifications or diplomas showcasing their skills and progress professionally.

Live, instructor-led learning:

Hands-on sessions, led by certified trainers that include peer-to-peer engagement and live feedback.

"Saffy was absolutely fantastic. The session was ran so professionally, with lots of patience and allowed time to practice. She was able to accommodate our different needs (timing, pace etc.) The course also provided many resources to aid us in building accessible courses using the Articulate tools, and other best practices."

**SENIOR TRAINING AND EDUCATION MANAGER,
VISIT BRITAIN/ VISIT ENGLAND**

“Brilliant training, very engaging and useful with a good mix of instruction and activity. The training was well-presented and I liked that discussion was encouraged – it was really good that Saffy encouraged and allowed time for this.

Thank you very much for enjoyable and valuable sessions, thank you!”
