# About OL

At Omniplex Learning, we are committed to empowering organisations to achieve the best possible outcomes from their learning and development initiatives.

Our comprehensive solutions include authoring tools, LMS solutions, digital adoption, content creation, training, and professional service. These are designed to provide continuous support at every stage of the L&D journey.

We proudly partner with global leaders, Articulate, CYPHER Learning, Docebo, and Vyond, reinforcing our status as a trusted ally in the industry.

Drawing on our extensive expertise and knowledge, we bring unparalleled insights and innovative solutions to our clients.

Our deep understanding of the industry allows us to tailor our services to meet the unique needs of each organisation, ensuring they have the tools and support necessary to succeed

# Course overview

Create professional, engaging video content using Vyond for learning and communication. This hands-on course gives you the skills to design, build, and deliver animated videos. These videos will capture attention and support your learning objectives.

Across ten practical modules, you will explore storyboarding, character design, camera movement, sound design, and AI powered features. You will learn how to create, refine, and share your videos effectively. You will also apply best practice for accessibility, consistency, and performance.

By the end of the course, you will be able to create polished, professional videos. You will communicate your message clearly and understand how to develop your work further.

## Core objectives

# 01

Build engaging scenes with built-in media, including characters, audio, animations and graphics.

# 02

Discover hidden tips and tricks directly from Vyond experts to create compelling animated videos.

# 03

Demonstrate proficiency in using Vyond's features and tools, showcasing the ability to create impactful videos.

## Course details

### Audience:

L&D, HR and corporate professionals looking to create impactful animated training videos with ease.

### Course dates:

Check our [website](#) for the latest dates.

### Format and delivery:

Delivered by expert instructors, either virtually or in person.

# Agenda

## 01

### Getting started with Vyond Studio

Kick off your Vyond journey by gaining a clear understanding of the platform and setting up your workspace.

- Explore the main features and interface of Vyond Studio.
- Navigate the asset library and apply basic setup and branding to your videos.

## 02

### Storyboarding and scripting

Learn how to organise your creative ideas by developing clear storyboards and scripts.

- Discuss storyboarding techniques to map out your video content.
- Practise following a storyboard to build structured, engaging videos..

## 03

### Character design

Bring your stories to life by designing unique characters with flexible customisation options.

- Create characters using a range of styles, body types, and clothing options.
- Use text to speech and character movements to add personality.

## 04

### Mastering camera movements

Enhance your storytelling by using camera movements that guide the viewer's attention and add a professional touch.

- Apply camera shots such as pans, zooms, and tracking.
- Discuss how movement can be used effectively in real projects.

# Agenda

## 05

### Creating impactful sound design

Elevate your videos by integrating audio to create a more immersive and memorable experience for your audience.

- Use text to speech and lip syncing to create natural dialogue.
- Add sound effects and music to support your scenes.

## 06

### Vyond AI-powered features

Unlock the full potential of Vyond by exploring its latest AI-powered features, which open up new creative possibilities.

- Explore the newest Vyond Go features.
- Streamline your workflow using text to video and AI avatars.

## 07

### Advanced tips and techniques

Gain valuable insights on advanced techniques that will help you elevate your projects and achieve a higher level of creative impact.

- Create transitions and use scene enhancement tools.
- Experiment with masking and effects to create unique visuals.

## 08

### Creative innovation workshop

Apply everything you've learned in a hands-on workshop designed to foster your creativity and practical skills.

- Create a video of your choice with Vyond, applying all course concepts.
- Present your video and receive feedback and guidance from your trainer.

# Agenda

## 09

### Sharing and exporting your videos

Ensure your content reaches your audience smoothly by learning **best practices** to **share** your projects with **accessible** considerations.

- Add captions and apply accessibility features to support inclusive learning.
- Export videos using appropriate formats and quality settings.

## 10

### Next steps and on-demand bonus tutorials

Continue your learning journey with access to additional resources and support.

- Access on-demand tutorials on 'Screen recording' and 'Integrating Vyond with Articulate 360'.
- Discover how Omniplex Learning can support your growth beyond the course.

# Pre-requisites

Training sessions are designed for a range of skill levels. Participants should have basic computer skills and be comfortable using common digital tools.

You will need access to a Vyond account before attending the session. The free trial has reduced functionality and may limit what you are able to complete during the course.

## All attendees will need:

- Vyond open on your browser and ready to use
- For virtual training, we recommend two screens for an optimum learning experience

# Why train with us?

Training isn't just about building skills – it's about helping people feel confident, capable, and inspired to do their best work.

Our courses are designed to meet learners where they are, giving them the space, support, and encouragement they need to grow. Every session is live, interactive, and hands-on, so people can ask questions, practise new techniques, and learn alongside others who share the same challenges. We focus on real-world application, not theory, so learners leave feeling ready – not just informed. And because all our programmes are shaped by decades of experience and backed by trusted accreditations, you can be sure your teams are receiving training that genuinely supports their development.

## **Learn from experts:**

Course content developed and delivered by top experts with 80+ years of combined experience

## **Post-training support:**

We're still here after the session – ready with resources, answers and guidance to support your continued learning journey.

## **Accredited & trusted:**

Every learner walks away with recognised certifications or diplomas showcasing their skills and progress professionally.

## **Live, instructor-led learning:**

Hands-on sessions, led by certified trainers that include peer-to-peer engagement and live feedback.

**Andrew Hanley**  
Client Training Specialist

“Saffy was absolutely fantastic. The session was ran so professionally, with lots of patience and allowed time to practice. She was able to accommodate our different needs (timing, pace etc.) The course also provided many resources to aid us in building accessible courses using the Articulate tools, and other best practices.”

**SENIOR TRAINING AND EDUCATION MANAGER,  
VISIT BRITAIN/ VISIT ENGLAND**

“Brilliant training, very engaging and useful with a good mix of instruction and activity. The training was well-presented and I liked that discussion was encouraged – it was really good that Saffy encouraged and allowed time for this.

Thank you very much for enjoyable and valuable sessions, thank you!”

**JOANNA WALDRON**  
**SENIOR LEARNING DESIGNER, SODEXO**
