

Articulate 360 Training

Making the most out of your Articulate 360 suite.

Overview

Do you want to create rapid, responsive, beautiful looking courses using Rise 360?

This 1-day training course teaches you how to build content using Rise 360, as well as how to supplement these modules with additional media using the Articulate 360 tools – Peek 360 and Replay 360. You'll learn how these tools can be used in conjunction with one another to create engaging and memorable learning experiences.

You'll have hands-on practice and creative challenges set by your Trainer to encourage you to use all the different blocks and features to create a module/course.

We will also teach you the best practices for using Peek 360, Replay 360, and Review 360 so that you can take your eLearning to new heights and use all your newfound skills.

Course Objectives

Apply

Apply your new knowledge and skills to create content on Rise 360, including interactions and quizzing.

Increase

Increase learner retention by creating videos, using Peek and Replay 360.

Utilise

Utilise the extensive content library on A360 and see the benefits of sharing courses via Review 360.

Included in the course

A personalised course completion certificate from Omniplex Learning.

Access to the Omniplex Learning Support Team for any questions post-training.

A specially crafted online library of resources including a training guide, best practice tips, videos and eLearning examples.

Exclusive access to networking and learning events with the Omniplex Learning Training Team and fellow training delegates.

Course Outline

Module 1: Rise 360

- Introduction to Rise 360 and Content Library
- Create themes to brand and professionalise your course
- Create text and media content blocks
- Add interactivity through tabs, accordions, labelled graphics and more
- Create branching scenarios using Rise 360
- Utilise Storyline blocks to create further engagement
- Create knowledge checks and quizzing
- Publishing your Rise content to LMS, Web, PDF and Review 360

Module 3: Replay 360

- Edit, cut, splice and silence media files including MP4 and audio to create learning videos
- Brand your Replay 360 videos
- Add fading effects to professionalise video sequences
- Publish your Replay videos to MP4 or Review 360

Module 2: Peek 360

- Create screen recordings for systems training and publish to MP4 or Review 360

Prerequisites

This training session is designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces (such as PowerPoint and browser windows).

All attendees will need:

A version of A360 installed and ready to use.

Check your system requirements on the link below:

Your Trainers

The UK's only certified Articulate Trainers, with a combined experience of 20+ years of using Articulate 360.

The Trainers have worked closely with Omniplex Studio, our team of digital learning creators and designers who have a combined Articulate 360 experience of 100+ years.

The Trainers have absorbed best practices and ideas demonstrated by the Studio Team and have designed this course to share that knowledge, skill and experience with our customers.
