I **thoroughly** enjoyed the training today on Rise360. I am fairly new to using the platform and so it was useful to get some tips on areas I was unaware of.

The trainer was incredibly **knowledgeable** and engaging and made the session **fun** and **interactive** which I loved.

The training was **excellent** and the trainer was 'wonderfully-interruptible', professional, **approachable** and **knowledgeable**.

Covered the basics, and pointed to where we can get next stage training, I went from zero knowledge to feeling able to create a course. **Exactly what I wanted.**
